

Abdalhadi-Alrefai

Full-Stack Developer

📍 Damascus, Syria ✉ abdalhadiarefai2002@gmail.com ☎ +963 996-377-577 🌐 in/Abdalhadi-alrefai 🏠 abdalhadi-alrefai.github.io/Portfolio

SUMMARY

Fullstack Developer with a passion for building intuitive, performant, and responsive web applications. Proficient in **React.js**, **Next.js**, **JavaScript**, **TailwindCSS**, and modern UI frameworks, with a strong eye for detail and clean code architecture. Experienced in translating **Figma** designs into seamless user interfaces and integrating **RESTful APIs** to deliver dynamic user experiences. Skilled in **debugging**, **optimizing performance**, and maintaining scalable, maintainable codebases. Thrive in **agile**, collaborative environments and take pride in solving **UI challenges** with elegant solutions. Eager to contribute to impactful products and grow within a forward-thinking development team..

EDUCATION

Bachelor of Science in Information Technology (Software Engineering)

Al-Sham Private University • Damascus, Syria • 2026

· Currently a fifth-year student. Specialized in Software Engineering with focus on web development technologies.

COURSEWORK

Front-end Web Development Training

Vica Web Solutions • 2024

[My-Profile Trainee](#)

Key Skills:

JavaScript · React.js · TypeScript · Redux · Tailwind CSS · Material UI · Framer motion · RESTful APIs · Git & GitHub · Vercel · Figma · Postman
Teamwork · Problem Solving · Good Communication · Time Management · Attention to Detail · Continuous Learning · Project management

Highlights:

- Built responsive single-page applications (SPAs) using **React**, **TypeScript**, and modern **JavaScript**.
- Used **Git & GitHub** for version control and collaborative development in a team-based environment.
- Debugged advanced state management issues using **Redux DevTools** and implemented scalable architecture.
- Developed dynamic components with **React Hooks**, focusing on performance and modularity.
- Designed consistent, clean UI using **Tailwind CSS** and **Material UI**; translated wireframes from **Figma** into pixel-perfect layouts.
- Integrated and consumed **RESTful APIs** using **Axios**, with thorough error handling and **Postman**-tested endpoints.
- Maintained strong task tracking, time management, and committed to continuous code quality improvement.

PROJECTS

EduPress

Self-initiated / Vica Web Solutions Training · github.io/edu-press/ · October 2024 - November 2024

- Developed a responsive online learning platform using **React** and **Tailwind CSS**.
- Designed intuitive UI components to enhance user experience and engagement.
- Integrated dynamic course listings and interactive features using **JavaScript**.
- Focused on accessibility and clean navigation for both desktop and mobile users.
- Collaborated in a simulated team environment to apply Agile practices.
- Deployed the app using **Netlify** and managed version control with **Git & GitHub**.

Blogs

Self-initiated / Vica Web Solutions Training · [github.io/Blogs/](#) · January 2025 - February 2025

- Developed a blog listing website using **React.js** and Vite with a focus on performance and code modularity.
- Built fully responsive components based on a **Figma** design, ensuring pixel-perfect **UI** on all screen sizes.
- Utilized reusable components and followed clean code principles for scalability and maintainability.
- Applied **modern CSS** techniques (Flexbox, Grid) using **Tailwind CSS** to achieve a clean and organized layout.
- Followed best practices in component structure and state management while simulating a real development workflow.

B-World

Self-initiated / Vica Web Solutions Training · [github.io/Books-Project/](#) · February 2025 - March 2025

- Developed a dynamic book browsing platform using **React**, **JavaScript**, and **Tailwind CSS**.
- Integrated advanced filtering and search functionalities for an improved user experience.
- Built reusable components and applied responsive design best practices.
- Managed the application's state efficiently to handle user interactions.
- Deployed the app via **GitHub Pages** and maintained code using **Git**.

Dashboard

Self-initiated / Vica Web Solutions Training · [github.io/Dashboard/](#) · March 2025 - April 2025

- Implemented an interactive admin dashboard using **React.js** based on a custom **Figma** design.
- Developed core authentication features including sign up, login, and logout functionalities.
- Integrated **RESTful APIs** via **Postman** to enable item management (add, edit, delete, view).
- Focused on responsive layout and clean **UI/UX** to ensure accessibility across devices.
- Applied React component-based architecture and state management for a smooth and scalable experience.

EXPERIENCE

Customer service

Syriatel (Damascus-Syria) • June 2024 – June 2025

- Provided prompt and professional support through phone, email, and live chat.
- Delivered personalized solutions and technical assistance, ensuring high customer satisfaction.
- Managed a high volume of calls daily, consistently meeting or exceeding KPIs (e.g., 95% satisfaction rate).
- Resolved issues efficiently, often going the extra mile to exceed customer expectations.
- Collaborated with internal teams to solve complex problems and deliver holistic support.
- Maintained accurate records of customer interactions using CRM tools.
- Contributed to the development of self-service resources such as FAQs and help guides.

SKILLS

Languages: HTML · CSS · JavaScript · TypeScript

Libraries & Frameworks: React.js · Redux · Next.js · Tailwind CSS · Bootstrap · Material UI · Axios · Framer Motion

Backend & Database: Laravel (MVC) · RESTful APIs · MySQL

Developer Tools: Git & GitHub · VS Code · Vercel · Postman · Figma

Soft Skills: Problem Solving · Team Collaboration · Communication · Time Management · Attention to Detail · Continuous Learning

Languages

Arabic: Native Language · **English:** Intermediate
